

DAVID HENRY
TEAM MUSCLETECH™

DOMINATE GENETICS

After over 5 years of collaborative research with the prestigious University of Nottingham, Team MuscleTech scientists threw genetics in the raging path of Anator-p70™, the world's first muscle gene activator – and ever since, it's been lights out on stagnant muscle growth. Injected with potent muscle gene-activating compounds, Anator-p70 penetrates your muscle cells, activating genetic regulators and forcing growth signals straight into your muscles for superior gains in size and strength. Become one of the freakiest physical specimens to ever walk the Earth and dominate your genetics with Anator-p70.

» **TRIGGERS RAPID AND DRAMATIC MUSCLE GROWTH BY IMMEDIATELY ACTIVATING MUSCLE GENE REGULATORS**

» **SCIENTIFICALLY ENGINEERED TO BLOCK CATABOLIC SIGNALING AT THE MOLECULAR LEVEL**

» **DELIVERS ANABOLIC SIGNALS TO MUSCLE CELLS FOR SHOCKING INCREASES IN SIZE AND STRENGTH**

» **GENETIC LIMITATIONS ARE A THING OF THE PAST!**
