

# I'M ON

"I'm growing faster than ever and putting on tons of muscle. I have a better cap on my delts, my chest is fuller and my arms are taking on new shape... everything is improving. Every time I pose I look harder, more separated and bigger! My muscles are firing on all cylinders. I'm making crazy gains and I don't want them to stop. I don't want to get off this stuff!"  
**Chris Cormier, 11-Time IFBB Pro Champion**

"I'm seeing results every week. My muscles are harder, fuller and bigger - especially my biceps. They're just exploding in size! I feel them improving with each workout. Now that I'm training on Aplodan, I'm making faster gains. At my next show I'll be the best I've ever been!"  
**Dexter Jackson, 7-Time IFBB Pro Champion**

"Aplodan has made my arms and chest bigger than they've ever been. In just 7 days I was lifting more weight for more reps, and within a month I had made huge size gains. Aplodan worked that quickly! My muscles feel different and they're sore all the time - that's how I know it's working."  
**Johnnie Jackson, World's Strongest Bodybuilder**

"My strength increased after my first week on Aplodan, and then kept increasing. I'm able to just beat my muscles to hell. Everything is blowing up because I'm using so much more muscle when I train. Next time I step on stage I'll be bigger and better... I'm gonna be a freak."  
**David Henry, IFBB Pro Champion**

"I'm moving more weight than ever, and my workouts are so intense that it feels like my muscles are going to rip off the bone... that's what it's like to be on Aplodan. Not only am I thicker and bigger, but my muscles are more dense, with more separation and striations!"  
**Branch Warren, 3-Time IFBB Pro Champion**
